ENERGY POLICY

Environment-friendliness and energy harvesting are of prime interest today which is the key factors in achieving Sustainable Development Goals (SDGs) for any organization. Nallamuthu Gounder Mahalingam College energy policy also has taken an efficient energy management and conservation through good established procedures specified in its policy.

Purpose of the Policy

The purpose of energy policy is to establish guidelines and strategies to manage energy resources effectively and sustainably. The energy policy seeks to create a more sustainable and environmentally responsible campus environment while also educating students and promoting sustainable practices within the college community.

Scope

The Green Campus, Energy and Environment Policies will develop exciting new co-curricular and extracurricular practices that encourage students to take the lead in creating positive change. These initiatives call for a thorough review of all infrastructural, administrative functions from the standpoints of energy efficiency, sustainability and the environment.

Objectives

- To adopt minimum energy performance standards for building lighting and equipment's in the Institution.
- To implement energy efficiency measures in the designing of new constructions and renovation of buildings.
- To promote the use of alternate sources of energy.
- To encourage sustainable energy supply.
- To create in-campus and public awareness on energy efficiency measures and energy conservation periodically.
- To streamline energy management practices through periodical energy audits.
