Minutes

I Based on University Representing Nominee's suggestions, the following changes can be done.

1. Atleast twenty Percentage of syllabus content should use MOOC (Massive open online Courses)
2. Feedback should be obtained from stakeholders and then based on the feedback only syllabus should be framed.
3. Courses should be in such a way to increase the employability ~~leat~~ entrepreneurship and skill development.
4. E-Books, E-materials, NPTEL videos for course content should be mentioned in the syllabus itself
5. A Separate course of internship training program is to be incorporated in the curriculum
6. Suggested to offer value Added course for Life Skills development.

7. In fifth semester, Instead of cryptography & Network security paper, Information Security Paper Introduced.

II Based on Industrial Experts suggestions, the following changes can be done.

1. In Third semester, RDBMS & JAVA [frontend] Lab paper can be changed as RDBMS Lab.
2. In Third semester, HTML & DHTML Lab can be changed into HTML & CSS [Responsive design]
3. In fourth semester, C#.net prog. lab paper's title can be renamed as Scripting programming or Visual programming.
4. In fifth semester, Major Elective I paper Data Mining's <sup>Mining and</sup> ~~hierarchy~~ can be changed and Data Analytics can be introduced based on Industrial need. In sixth semester, Major Elective III Multimedia techniques paper is outdated & so it can be changed.

III Based on Subject expert and Academic Auditors's Suggestions, the following changes can be done.

1. Elective paper can be shared by two departments and provide Multiple paper options for the students.
2. SWAYAM, NPTEL, Spoken tutorial can be used to Enhance the students learning methods in any Semester outside the Programme frame work.
3. Details about SWAYAM portal is given.

IV Based on Alumni's suggestions, the following changes can be done.

1. Preference can be given to papers like Artificial Intelligence, Big data Analytics, Cloud computing, RPA based on Industrial need.
2. Experts can be invited to give a session on latest concepts
3. Projects should be more practical oriented and it can be done in group.
4. Skill based paper based on latest Industry needs can be introduced.

#### Rectification :

Batch 2017-2020

In Third Semester, HTML & DHTML paper is self study paper. Based on this Board of Studies, this paper is changed from self study to a paper handled by the faculty.

1. Based on the suggestions stated above, the final scheme and syllabi for Batch 2018-2021 has been passed.
