The board of studies (BOS) meeting in chemistry was convened on 24.02.2018 at 10.30 AM. The syllabi of three year course namely B.Sc. Chemistry and Allied Chemistry for B.Sc., Botany, Zoology and Physics have been revisited and revised. Resolved to adopt the modified syllabi suggested by the board members. The following changes were done.

- \* 18UCY101 - Unit III Include: Markovnikov's rule and Anti-Markovnikov's rule (peroxide effect)
- \* 18UCY405 - Unit IV - Include: Cis- and Trans- isomerism
- \* 18UCY406 - Core Practical-V - In the preparation of organic compounds  
Include: Nitration of Acetanilide to p-Nitro acetanilide  
Remove: Acylation of Salicylic acid.
- \* 18UCY507 - Unit-III Remove: From MO theory to  $[\text{Co}(\text{NH}_3)_6]^{2+}$  complexes.
- \* 18UCY508 - Unit-V Include: Special isoprene rule.  
Remove: Stereo chemistry of Menthol
- \* 18UCY618 - Core Practical-III,  
In Physical chemistry. Include: Transition temperature of NaBr.  
In Gravimetry. Include: Nickel as DMG complex  
Remove: Calcium as Calcium oxalate
- \* 18UCY684 - Part-IV - SAC Elective-II - "Clean Energy"  
Instead of the above paper, Online course on "Theory behind practical chemistry" was introduced with same credit for 50 marks.
- \* 18UPS3A3/18UBY3A4/18UZY3A4 - Unit-V  
Include: Corrosion and its Prevention.
- \* 18UPS4A5/18UBY4A6/18UZY4A6 - Allied Practicals  
Remove: Estimation of Copper Using Sodium thio sulphate.
- \* 18UCY512 - Core Elective Practical: Application oriented practicals will be reintroduced in V-Semester.

This is also applicable to 2016-2017 and 2017-2020 batches.
