### Choice-Based Credit System coupled with Grading, Innovative method of Curriculum and Evaluation:

This is a modern system introduced in Higher Educational Institutions to keep the curriculum relevant to the global demands and standards. Students are offered with a choice of Job-oriented courses, Elective Courses and courses for improving soft-skills. They can choose any course of their interest and need during the period of study and earn extra credits and certificates in addition to the Degree in their respective disciplines. In this College, Choice Based Credit System is followed from 2004 – 2005 academic year onwards.

Under this system, every subject is fixed with certain credit points, based on its content of knowledge, its application orientation as well as number of contact hours allotted. This is done after a thorough analysis of the content of each subject by the members of Board of Studies. General curriculum structures for PG and UG programme are as shown below:
