### Course Objectives

- To enable the students to refine their mathematical, logical, and analytical skills.
- The student will be able to answer real-life simple problems by using HCF and LCM.
- The student is able to apply the correct sequence of operations to find out the value of a given mathematical expression.
- The student will be able to solve the problem involving square roots, cube roots, and average.

### Course Outcomes (CO)

|    |     |   |
|----|-----|---|
| K1 | CO1 | To have fundamental knowledge of Mathematics about problems of numbers using Mathematical formulae.                               |
| K2 | CO2 | To understand the concepts of profit & loss related processing, simplification, etc.,   |
| K3 | CO3 | To apply the formulae to real time problems on probability, Areas of surfaces and apply data visualization tool for any data set. |
| K4 | CO3 | To analyze the problems solving related to Age, Time and Distance and Time and Work etc. To examine their employability skills.   |
