### Abstract

*The study explored student readiness for e-learning in Pollachi Taluk. In the last decade the impact of technology and multimedia on training, learning and education has increased at a rapid pace. There are different theoretical views, highlighting different schools of thoughts in the area. E-learning deals with the impact of technologies on learning and teaching. Within an organization the e-learning environment is utilized to train and educate the employees on their professional roles and organizational strategies and policies. There are numerous perspectives on the impact of an e-learning environment in corporate training. The responses imply that students have a slightly positive perception towards e-learning.*

**Keywords:** Technology, Multimedia, Teaching, Environment

**Introduction :** E-learning processes include Web-based learning, computer-based learning, virtual classroom training and use of multimedia or digital content. The digital content is delivered via the Internet, audio or video tape, CD-ROM or satellite TV. It includes multimedia or digital content in the form of text, image, animation, video and audio. Abbreviations like CBT (Computer-Based Training), IBT (Internet-Based Training) or WBT (Web-Based Training) are generally used as synonyms to e-learning.
