1 Audit result

Management system effectiveness was verified on site by means of random sampling by an appropriately selected audit team. This applies in particular to the compliance of workflows with standard requirements and the descriptions in management system documentation. The audit objectives as mentioned in the audit plan, the special features of the organization's business activities, the applicable statutory and regulatory requirements and the requirements set forth in other generally applicable documents were also taken into account. This was done by means of a sampling approach, by conducting interviews and reviewing the appropriate documentation. Audit findings and recommendations regarding opportunities for improvement have been set forth in Sections 4 of this report.

1. Audit result

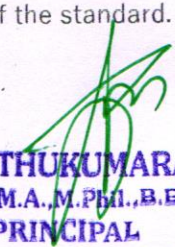

Management system effectiveness was verified by an appropriately selected audit team. This applies in particular to the compliance of workflows with standard requirements and descriptions in the management system documentation. The audit objectives as mentioned in the audit plan, the special features of the organization's business activities, the applicable statutory and regulatory requirements set forth in other generally applicable documents were also take into account. This was done by means of a sampling approach, by conducting interviews and reviewing the appropriate documentation. Audit findings and recommendations regarding opportunities for improvement have been set forth in section 4 of this report.

Nonconformities from last audit	There were no nonconformities revealed during last audit.
Nonconformities current audit	The current audit did not reveal any nonconformities.
Re-Audit	A re-audit is not required. In case the current audit did reveal nonconformities please refer to the nonconformity report for more details.
Stage 1 Audit	The current audit is a surveillance audit. Hence, a stage 1 audit was not performed.

The organization has established and maintains an effective system to ensure compliance with its policy and objectives. The audit team confirms in line with the audit targets that the organization's management system complies with, adequately maintains and implements the requirements of the standard.
