1.4.2 Action taken report of Feed Back

S. No	Stake holder	Suggestions Given by Stakeholders	Action taken
1	Faculty	As a means of enhancing employability and pursuing higher education, the current curriculum will be revamped so that experimental learning is instilled and in-depth knowledge is enhanced.	Hydroxy acids, Volumetric analysis, Preparation of complexes in core practicals, Fugacity, Preparation and reactions of phenol, nitrobenzene, aromatic amines, Characteristics of TGA Curve, GLC, Retro-Diels -Alder Reaction, Structure and functions of RNA, Polymer additives , future trends in Green chemistry were incorporated in the exixting syllabus.
2	Employer	The majority of employers believe that the curriculum is relevant to industrial needs. They also have positive opinions about the curriculum's ability to ensure student attitudes and professional ethics.	The syllabus has also been enhanced by incorporating new methods and advanced techniques.
3	Student	The majority of students believe that the course content is relevant to their future careers. The curriculum had the potential to develop entrepreneurial skills in students. The current curriculum is career-oriented. A few students suggested that interdisciplinary courses be	The curriculum has a tendency to focus on skill development in order to meet industry requirements. Innovative new courses are introduced, and course syllabi are updated in response to industry changes.

		included to meet the most recent industrial requirements.	
4	Alumni	The curriculum should be revised to reflect the latest developments and applications.	Courses that cater to the needs of the future like Applications of Spectroscopy, Agricultural chemistry and Analytical techniques for agrochemicals, Environmental Chemistry are introduced.

DEPARTMENT OF COMPUTER SCIENCE (AIDED)

1.4.2 Action taken Report – Based on Feedback on Curriculum

S.no	Stakeholder	Feedback/Suggestion given by stakeholders	Action taken
1	Faculty	Advanced topics can be included in the course. Suggested to increase more number of reference books.	On the basis of suggestion given by stakeholders the following changes are made. Advanced topics are included; the new paper is named as R-Programming. More reference books are available in library. Students can access magazines to improve their skills.
2	Employer	Students have to improve communication and technical skills.	Instructions were given and made them to participate in academic related programs that helped them improve their communication and technical skill. Build-IT platform is devised for coding and students are encouraged to participate in the national level hackathon. Training programs are scheduled by Career Development Centre (CDC) for the students to improve their communication skills.
3	Student	Curriculum should add advanced courses related to intra and inter disciplinary.	Based on the input received by the students, courses like R programming are included in the curriculum, and also students have a flexibility to choose different Professional and open elective courses offered by the other branches.
4	Alumni	To improve academic facilities and activities as per the industry standards.	Hands on training by the internal faculty and training are provided to students on java full stack and R programming, Advanced Python Programming etc as per the needs of the industry.
